

Workshop on Integrating Design and Service-Learning/Community Engagement within the Engineering Curriculum

Limited seats available!

17 - 18 November 2017, 8.00 am – 5.00 pm
Universiti Teknologi Malaysia, Kuala Lumpur

Synopsis of Workshop

Successful programs have shown that undergraduates with appropriate mentoring and curricular scaffolding can make significant impacts in their communities around the world. They have also demonstrated that these experiences can be integrated into the engineering curriculum and can help meet program goals and accreditation. Students participating in these kinds experiences have been shown to be better prepared for leadership in industry.

This workshop will introduce the concepts of service-learning/community engagement within the engineering context. Participants will be actively engaged in exploring opportunities within their own universities and colleges using successful programs as examples. The workshop will provide the information, tools, and resources needed to start a program. Participants will be guided through exploration of the components needed for successful programs and each will leave the workshop with a plan for implementing the concepts at their own institution.

For more information on the workshop, please visit <http://www.weef2017.org/event-forum-workshop.php>.

Coordinator

Prof. Dr. William Oakes,
Director, EPICS Program for
Purdue University

Registration Fees

US\$70 (WEEF participants),
US\$200 (non-WEEF participants).
For information and registration, please contact:

7TH WORLD ENGINEERING EDUCATION FORUM 2017

The Era of Synergistic Collaboration

In Conjunction with:

The 7th Regional Conference on Engineering Education & Research In Higher Education 2017 (RCEE & RHed 2017)

The 1st International STEAM Education Conference (STEAMEC 2017) and

The 4th Innovative Practices In Higher Education Expo 2017 (IPHEX 2017)

13-16 November 2017 | Berjaya Times Square Hotel, Kuala Lumpur, Malaysia
